### Basic Service Charges:

This Basic Professional Service fee includes, but is not limited to, a proportionate share of the taxes, licenses, utilities, and business expenses necessary to serve the public in a professional manner. This fee includes all consultations with the family members: clerical and administrative services; preparation and filing of required legal documents and permits; consultation with family members with respect to issues of clergy, cemetery, cremation, planning the funeral service, and publishing of obituary notices. Each service requested or required will be charged separately. This fee for our basic service and overhead will be added to the total cost of the funeral arrangements that are selected.

**Basic Professional Services of Funeral Directors and Staff:.....\$1,495.00**

Embalming is a chemical process which provides temporary preservation of the body and eliminates certain health hazards. Embalming is performed by an embalmer duly licensed and authorized by the State of Georgia. The Georgia state law does not usually require the process of embalming; however, it may be necessary if you select certain types of funeral arrangements. For example, a funeral service that includes a viewing requires embalming. If the family prefers to not have the embalming procedure, the family generally must choose an arrangement that does not require embalming, such as a direct cremation or immediate burial without a viewing.

**Embalming.....\$795.00**

Autopsy charges cover preparation of the body over and above the normal procedure and practices of regular case embalming. Time and process created an excess of expense to the funeral home and staff. This charge is added to the cost to offset these circumstances.

**Autopsy.....\$100.00**
