In most areas of the country, state or local law does not require that you buy a container to surround the casket in the graves. However, many cemeteries require that you have such a container, so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

Our Funeral Home makes no representations or warranties regarding the outer burial containers listed above. The only warranties expressed or implied, granted in connection with goods sold with these outer burial containers are express written warranties, if any, extended by the manufacturers thereof.
