CARE OF YOUR LOVED ONE

We require the use of licensed personnel to supervise all technical aspects of the services provided to those loved ones placed in our care. The utmost "attention to detail" is taken in all steps of the preparation process. Our facility is OSHA and state compliant. Our personnel and management take their role very serious and it shows in the dedication to each family we serve.

**Embalming
\$ 750**

Embalming is a chemical process that provides temporary preservation of the body and eliminates certain health hazards. The cleansing and replacement of an acceptable "memory picture" is part of the embalming process. This procedure must be completed by a licensed embalmer certified by the State of Georgia.

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.

**Cremation
\$ 400**

The cremation casket or container that has been selected by the family is placed into the care of our crematory manager or assistant. Once placed into the cremation chamber, intense heat reduces the cremation casket or container and all contents into small fragments. These cremated remains are then placed in a processor and mechanically reduced in size. The cremated remains are placed into an urn or container that has been selected by the family. Disposition/ Final Memorialization then can be completed according to the family's wishes.
