## CARE OF THE DECEASED

---

Effective: January 1, 2016  
(Subject to change without notice)

### TRANSPORTATION

- Removal and transfer to the funeral home within 75 miles \$195

### EMBALMING \$610

Embalming is a chemical process that provides temporary preservation of the body and eliminates certain health hazards. Sanitary preparation of the deceased is part of the embalming process. A funeral professional licensed by the State Of Georgia must complete this procedure.

*Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as funeral with visitation. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.*

### CREMATION \$495

The casket or cremation container is brought to a crematory where it is placed in a cremation chamber, which is heated to an extremely high temperature. The intense heat reduces the casket or cremation container, as well as the remains, to small bone fragments, which are then placed in a processor and reduced in size. The cremated remains are then placed in an urn or temporary container and returned to the family.

The funeral home requires a refundable deposit of \$150 when asked to hold cremated remains for later release to a family. See the Cremation Authorization Form for additional information and details.
