Green Burial: This establishment is one of a select number of funeral homes who meet the criteria for providing green funeral service by the Green Burial Council; a tax-exempt, nonprofit organization working to encourage environmentally sustainability in the field of funeral service. These offerings allow for a funeral to take place without the use of toxic or nonbiodegradable materials/chemicals. Caskets and alternative containers are made available to enclose and transport the dead. Body preparation suitable for a green funeral service accommodated by this funeral home consists of refrigeration, the use of topical sprays/compounds, or ecobalming.
